DN. IOHANNI CHRISTOPHORO,

Episcopo Eystetensi,

Domino clementissimo;

Εὐπραγίαν omnimodam adprecor.

CUm superis adhuc vesceretur auris laudatissimus PRINCEPS, DN. JOH. CVNRADVS, felicis memoriæ Antecessor tuus; REVERENDISS.me PRINCEPS, DOMINE BENIGNISSIME, Hortum Eystetensem, opus magnum & laboriosum, vel invidiâ teste, auspiciis faustis, potissimùm illius Mæcenatis mei liberalitate absolveram, & publici juris feceram; opus, inquam, sumptuosum, & quod multos admiratores, parcè loquar; at fortè paucos repperiat emptores. Nam non solùm Eiconas plantarum atq; herbarum ad vivum æri incisas repræsentavi, verùm etiam descriptionem virium earundem in usum φιλιατρῶν, & studiosorum τῆς βοτανικῆς sedulò seriò-exhibui. Cogitanti autem mihi, quâ commodè pluribus hoc opus communicari ratione posset: Quippe thesaurus hic plantarum tot exoticarum atq; herbarum, ingentibus collectus impensis (ut glyptarum mercedes taceam) nequaquam humi defodiendus, aut sub modio abscondendus fuerat, quod nefas & piaculum censebunt æqui rerum æstimatores omnes: sed ut BONO PUBLICO, cui singuli, quotquot nati sumus non fruges consumere, sed patriæ & societati hominum utiles, inservire obstringimur, magis ac magis propaletur, ac in plures populos derivetur: visũ fuit, Eiconismos solùm, ὡς τὸ πλεῖστον Naturæ θαύματα, contemplandos obferre spectatoribus, quorum oculos animosq; pascerent abundè; neq; nimis tamen pretio onerarentur libri redemptores: Inquirerent verò jucundo adprimè labore, quid de herbis proderent cum prisci tum recentiores scriptores. Et hoc quidem veteri more, quo alii nudas herbarum imagines olim figurâ dedissent contractâ: ego verò novo exemplo dimensionem herbarum plantarumq; veram, non fictam, examussim exprimerem. Cum autem PATRONVM huic meo labori quærerem; haut extra Solis orbitam, quod aiunt, mihi longiùs abeundum censui. Venit in mentem ocyùs de TVA CELSITVDINE: atq; in oculos incurrit VIRTVTIS TVÆ HEROICÆ SPLENDOR, PRINCEPS RELLIGIOSISSIME. Quare EI, qui ὁμοψήφως καὶ ὁμοψύχως ad Apicem Principatus Eystetensis electus evectusq; est, itaq; jure optimo maximo, D. JOH. CVNRADO, doctissimo juxtaq; munificentissimo olim Principi, rei certè herbariæ gnarissimo (quod studium ad cognitionem ÆTERNI NVMINIS, utpote pars LIBRI NATVRÆ non minima, neq; contemnenda, quippe præsentem refert quælibet herba DEVM, nos perducit) ob merita successit, & in eâ successione adeptus sit Hortum instructissimum (cui vix parem, facessat Livor, sit repperire) eumq; ceu paternum Heredium creverit, neq; alii, obferendum, dedicandum, consecrandúmq; fuerat hoc Opus, quod jure successorio sibi ultrò TVA CELSITVDO evendicaret, sive apud Centumvirale Iudicium

PETO autem supplici voto, devotóq; animo TVAM oro CELSITVDINEM, uti ratum gratum hocce factum meum habeat; & favoris sui principalis radiis mihi affulgeat, vultuq; sereno adspiciat animum meum, à quo ejuscemodi munuscula æstimanda sunt.
